Mujer y Corazon: Community Health Workers and Their Organizations in Colonias on the U.S.-Mexico Border—An Exploratory Study

This report is the final component of a research project that studied community health programs on the U.S.-Mexico border. It examines community health worker organizations and practices within *colonias*—border communities prone to poverty, inadequate access to health care, and poor health conditions—in New Mexico and Texas. The report addresses the relationship among community health worker organizations, community health workers themselves, and the actual communities. It includes policy implications, tables, figures, and references.

Publication Year: 2004

Length: 38 pp.

Identification Number: ORHP00299

Definition of Rural in the Context of MMA Access Standards for Prescription Drug Plans

This paper examines how the definition of rural will affect access to rural pharmacies under the Proposed Rule of the Medicare Prescription Drug, Improvement, and Modernization Action (MMA), which is to be implemented with full benefits in 2006. It compares differences among commonly used definitions of rural, addresses the risk of exclusion under current MMA access standards, and discusses how multi-State regions affect the definition of rural. The paper includes maps and charts.

Publication Year: 2004

Length: 7 pp.

Identification Number: ORHP00301

Mujer y Corazon: Community Health Workers and Their Organizations in Colonias on the U.S.-Mexico Border—Policy Brief

This policy brief summarizes a report that examined community health worker organizations and practices within *colonias*—border communities prone to poverty, inadequate access to health care, and poor health conditions—in New Mexico and Texas. It outlines the principal conclusions and policy implications of the research project and report.

Publication Year: 2004
